IGT 2016 *Weissgold*

The "**Weissgold**" is a **unique white wine**, which is found in this **Cuveè** only at the vineyard Plonerhof.

Selected white **Burgundy** and **sun-ripened Golden Muscatel grapes** are here combined with a wine, which has the best characteristics of both varieties!

The wine is **partly fermented on the mash**, giving it an even **more flowery bouquet** and an **intensely golden-yellow color**.

The **White Burgundy** adds a very fine acidity and freshness, while the **Golden Muscatel** seduces with full, exotic notes.

In the nose the white gold reminds **of elderberry blossoms, litchi and ripe pineapple**. On the palate it presents itself **full-bodied** and despite the striking fruit **fresh with a graceful finish**.

The golden yellow color of this wine makes you want to have a nice glass of white wine.

We recommend it for an aperitif (possibly also with mint), to fish and seafood, as well as to vegetables or to enjoy in between!

The white gold is **dried out** (no residue).

Recommended serving temperature: 12-15° C
